A **SAFER** FUTURE

BREX
PNEUMATIC BRAKE SYSTEMS

Brex was founded in 2005 and is located in the city of Rio de Janeiro. It is the South American Company leader in the production of pneumatic components for the brake and suspension systems for commercial heavy-duty vehicles, such as trailers and semitrailers. Our engineering is equipped with high-tech softwares for product development and also state-of-the-art eletronic tests in the production line.

BREX
SISTEMAS DE BRAKE

Supplier in 4 of the top 5 OEM in Latin America, choosing Brex you will have a solid partnership counting with more than 20 years of experience in this market.
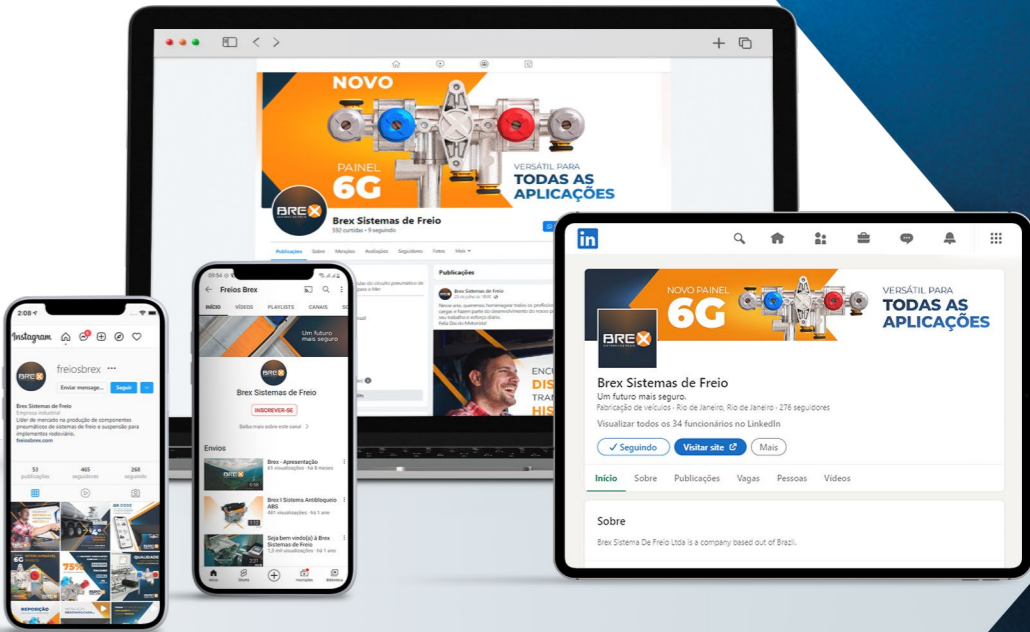

Brex produces components that are carefully tested and inspected before the factory shipment, ensuring efficiency and durability of the products, providing fast delivery and a good after sales attendance.

TS

WITH BREX, QUALITY AND SAFETY GO HAND IN HAND

SMOOTH TRANSITION TO MEET THE STANDARD WITH **THE BEST COST-BENEFIT**

Working together with the ABS system, TS Brex brings more safety to the roads through vehicle stability control. With the TS it is possible to detect previously the threat of a tipover and prevent it, reducing the risk of accident.

CONTRAN N° 954

The legislation establishes that the stability control system becomes a mandatory safety item in new vehicles – in categories M1, M2, M3, N1, N2, N3, O3 and O4 – from January 2025.

Add the TS Brex module to your trailer's pneumatic circuit.

Available in 2 KIT versions for large compatibility with the requirements of production implements.

- **MODULATOR KIT TS BREX 2S2M /4S2M**
  KT020024

- **MODULATOR KIT TS BREX 4S3M**

6

+ ECONOMIC VIABILITY

to attend the new legislation, compared to other systems offered on the market.

+ SAFE ENVIRONMENT

for the driver during the route, lower risk of damaging cargo transported.

QUICK DIAGNOSIS

Reduce the time spent diagnosing the system using the "End Of Line Test", our exclusive solution that makes it faster to identify failures and errors, using this modern electronic system.

EASY MAINTENANCE

Brex is the lead supplier of pneumatic components for trailer's brake systems in Brazil. With a wide authorized technical assistance all over LATAM, the installation, maintenance and repair of our components are already well-known by it's agility in the process and easy aftermarket.
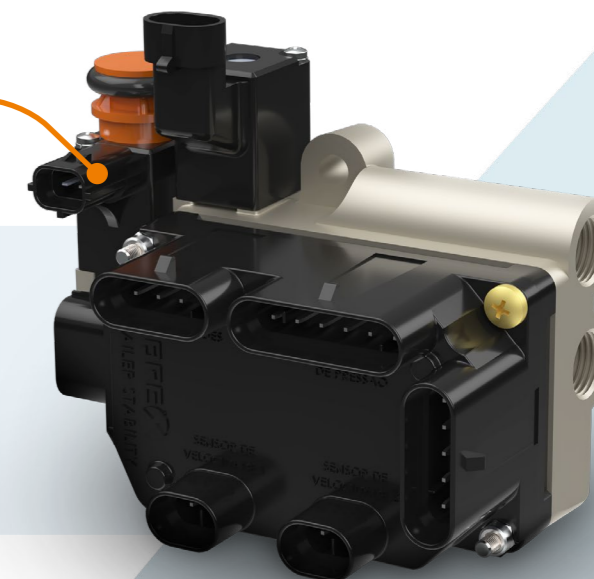

Download the installation manual

SIMPLICITY FROM INSTALLATION TO USE

The TS Brex installation is easy to adapt in the pneumatic circuit of your implement. Using simplified parameterization, it is possible to install the module already using the vehicle's information.

CODE	DESCRIPTION	
RP030024	SPEED SENSOR HARNESS

DIAGNOSTIC DEVICE

Reduces time in identifying faults and errors with a modern electronic system.

Going beyond the versality that it already had, the second generation of the Brex ABS now also counts with a **third electronic modulator**, allowing a costumized configuration for your implement.

FOR ALL APPLICATIONS

The Brex **2nd generation Anti-Lock Brake System's (ABS) for trailers and semi-trailers** has the necessary characteristics for installation on the most models on its assembly line.

4	RP250005	Exhaust
5	RP020010	In Line Filter

ALL COMPATIBLE

All of the main functions of the trailer brake system were brought together in a single product, with only one source of supply and without the **need of auxiliary installations**. This was developed to custom the project of pneumatic solutions and to keep the 'set up' even easier and more reliable. It can be installed in two ways: directly on the vehicle's chassis or via support (using the bracket), **with fixing and applications compatible** with the previous generations of Brex panels or with panels from other brands available in the market.

The Brex 6G Panel has the advantage of a **"plug and play"** adaptability, it allows to replace from the oldest versions (4G or 5G) - or even a panel from another brand (competitor) – without new adaptations, no need for auxiliary connections or a pneumatic specialist. Just replace the old panel for the new Brex 6G Panel using the **same drilling** and hoses.

The repairs of the Brex 6G Panel are **easy to handle and to adapt,** they were developed to fix any panel component. That way, the maintenance is easily done and, after changing, the vehicle is ready to hit the road again.

RANDON NOMA LIBRELATO
(GUERRA) FACCHINI AND OTHERS
ACCESSORIES:

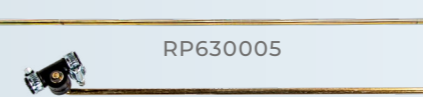

RP540005   RP560005   RP630005
                        RP550005
QUICK RELEASE VALVE

CODE: THREADS:
VA020005   M16 x 1,5mm

VA170005   M16 x 1,5mm
              M22 x 1,5mm

VA200005   1/4" NPT
              1/2" NPT

FUNCTIONS:
Quick
Release

REPAIR:
RP020005
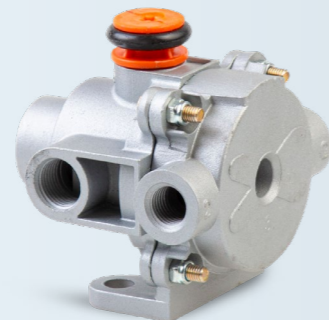

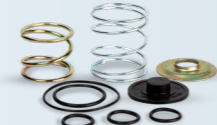

ITEM:
RANDON NOMA LIBRELATO
(GUERRA) FACCHINI AND OTHERS

QUICK RELEASE VALVE WITH LOCKING FUNCTION

OBSERVATION:

Quick release valve with locking function.

CODE: THREADS:
VA090008   M16 x 1,5mm
              M22 x 1,5mm

FUNCTIONS:
Quick   Locking
Release   Function

REPAIR:
RP090008

ITEM:
NOMA FACCHINI
(GUERRA) AND OTHERS

HEIGHT ADJUST VALVE

CODE:
VA060009

THREADS:
M16 x 1,5mm

FUNCTIONS:
Levelling Valve

ITEM:
RANDON NOMA LIBRELATO
(GUERRA) FACCHINI AND OTHERS

OVERFLOW VALVE

CODE:
VA290005

THREADS:
M16 x 1,5mm

FUNCTIONS:
Pressure Protection
Valve

REPAIR:
RP290005

ITEM:
RANDON NOMA AND OTHERS
(GUERRA) FACCHINI

SPRING-BRAKE PROTECTION VALVE

CODE:
VA250005

THREADS:
M16 x 1,5mm

FUNCTIONS:
Spring Brake Protection

REPAIR:
RP250005

ITEM:
RANDON · NOMA · AND OTHERS
GUERRA · FACCHINI

2/2 WAY VALVE

CODE:
VA310005

THREADS:
M16 x 1,5mm

FUNCTIONS:
Locking Function

REPAIR:
RP070005

ITEM:
RANDON · NOMA · AND OTHERS
GUERRA · FACCHINI

TWO WAY VALVE

CODE:
VA030008

THREADS:
M16 x 1,5mm

FUNCTIONS:
Two Way Valve

REPAIR:
RP050008

ITEM:
RANDON · NOMA · AND OTHERS
GUERRA · FACCHINI

TWO WAY VALVE

CODE:
VA050008

THREADS:
M16 x 1,5mm

FUNCTIONS:
Two Way Valve

REPAIR:
RP050008

ITEM:
RANDON · NOMA · AND OTHERS
GUERRA · FACCHINI

3/2 WAY VALVE

CODE:
VA300005

THREADS:
M16 x 1,5mm

FUNCTIONS:
Locking Function

REPARO:
RP070005

ITEM:
RANDON · NOMA · AND OTHERS
GUERRA · FACCHINI

DOUBLE 3/2 WAY VALVE

CODE:
VA060015

THREADS:
M16 x 1,5mm

FUNCTIONS:
Locking Function

REPARO:
RP070005

ITEM:
NOMA · FACCHINI · AND OTHERS
GUERRA · LIBRELATO

SELECT LOW VALVE

CODE:
VA050016

THREADS:
M16 x 1,5mm

FUNCTIONS:
Select Low Valve

REPAIR:
RP050016

ITEM:
NOMA · FACCHINI
GUERRA · AND OTHERS

SELECT LOW VALVE W/ LOCKING FUNCTION

CODE:
VA040016

THREADS:
M16 x 1,5mm

FUNCTIONS:
Select Low Valve · Locking Function

REPAIR:
RP040016

ITEM:
NOMA · FACCHINI
GUERRA · AND OTHERS

BREX
PNEUMATIC BRAKE SYSTEMS

PRESSURE REGULATOR VALVE

OBSERVATION:
The VA010020 part number replaces the old VA050012

CODE:
VA010020
VA030022

THREADS:
1/8" BSP
1/4" BSP

FUNCTIONS:
⊕ Pressure Regulator Valve

ITEM:
NOMA FACCHINI AND OTHERS
GUERRA LIBRELATO

MANOMETER WITH GLYCERIN

CODE:
IC015705

FIXATION:
External Thread 1/8" BSP

ITEM:
NOMA FACCHINI AND OTHERS
GUERRA LIBRELATO

EMERGENCY MANUAL COUPLING HEAD

CODE:
VA230005

THREADS:
M16 x 1,5mm

FUNCTIONS:
Coupling Head

REPAIR:
RP230005

ITEM:
RANDON NOMA LIBRELATO
GUERRA FACCHINI AND OTHERS

SERVICE MANUAL COUPLING HEAD

CODE:
VA240005

THREADS:
M16 x 1,5mm

FUNCTIONS:
Coupling Head

REPAIR:
RP230005

ITEM:
RANDON NOMA LIBRELATO
GUERRA FACCHINI AND OTHERS

IN LINE FILTER (BY-PASS)

+ COST-EFFECTIVE

CODE:
VA050022

BODY:
Plastic

THREADS:
M16 x 1,5mm

FUNCTIONS:
In Line Filter with By-Pass

REPAIR:
RP050005

ITEM:
RANDON NOMA AND OTHERS
GUERRA FACCHINI

IN LINE FILTER (BY-PASS)

CODE:
VA050005
VA070011

BODY:
Aluminium
Aluminium

THREADS:
M16 x 1,5mm
M22 x 1,5mm

FUNCTIONS:
In Line Filter with By-Pass

REPAIR:
RP050005

ITEM:
RANDON NOMA AND OTHERS
GUERRA FACCHINI

EMERGENCY AUTOMATIC COUPLING HEAD

CODE:
VA130005

THREADS:
M16 x 1,5mm

FUNCTIONS:
Coupling Head

REPAIR:
RP130005

ITEM:
RANDON NOMA LIBRELATO
GUERRA FACCHINI AND OTHERS

SERVICE AUTOMATIC COUPLING HEAD

CODE:
VA140005

THREADS:
M16 x 1,5mm

FUNCTIONS:
Coupling Head

REPAIR:
RP130005

ITEM:
RANDON NOMA LIBRELATO
GUERRA FACCHINI AND OTHERS

MANIFOLD WITH TWO OUTLETS

NEW MODEL

CODE:
VA070008

THREADS:
M16 x 1,5mm

FUNCTIONS:
Manifold

ITEM:
RANDON NOMA LIBRELATO
GUERRA FACCHINI AND OTHERS

MANIFOLD WITH FOUR OUTLETS

CODE:
VA080008

THREADS:
M16 x 1,5mm

FUNCTIONS:
Manifold

ITEM:
RANDON NOMA LIBRELATO
GUERRA FACCHINI AND OTHERS

BRACKET AND COVER ASSEMBLY

CODE:	VALVES
PA010009	2 valves
PA020009	3 valves
PA040009	4 valves

ITEM:
RANDON NOMA AND OTHERS
GUERRA FACCHINI

PLASTIC COVER

CODE:
PA010107

ITEM:
RANDON NOMA
GUERRA FACCHINI

PORT PROTECTOR

NEW MODEL
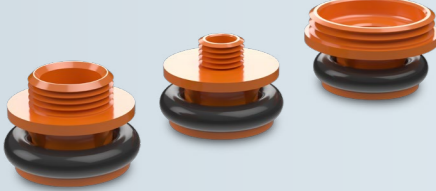

CODE:	THREADS:
IC024805	M16 x 1,5mm
IC028905	1/8" BSP
IC024905	M28x1,5mm

ITEM:
RANDON NOMA LIBRELATO
GUERRA FACCHINI AND OTHERS

ONE WAY VALVE WITHOUT RETURN
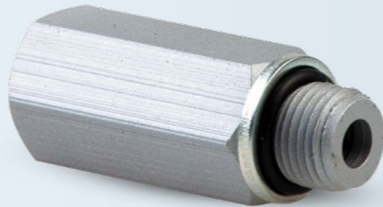

CODE:
VA110005

THREADS:
M16 x 1,5mm

ITEM:
RANDON NOMA LIBRELATO
GUERRA FACCHINI AND OTHERS

BREX
PNEUMATIC BRAKE SYSTEMS

SELF-STEERING AXLE CONTROL PANELS

It pneumatically sets up the self-steering axle.

SLACK ADJUSTER

Automatically compensates the break lines detrition, adjusting its gap regarding the drum, avoiding unecessary friction and system overheating.

EMERGENCY VALVE

Automatically activates brake application in case of system depressurization.

QUICK RELEASE

Quick release of the compressed air from the brake chambers.

LOCKING FUNCTION

It does not allow the axle braking when it is raised/out of roll.
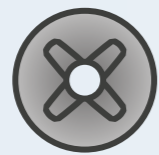

MANIFOLD

Distribution of compressed air from 1 inlet in 2 or more outlets.

TS - TRAILER STABILITY

Works together with the ABS to control the stability of the implement, enabling prior detection of possible tipping and its correction.

LIFT AXLE VALVE (PUSH-PULL VALVE)

Raises the axles to save tires when the vehicle is unloaded.

SPRING-BRAKE PROTECTION VALVE

Prevents the involuntary application of the parking brake ("spring-brake") when the pressure is below 5 bar.

TWO WAY VALVE

It is the anti-compound system of the braking modes, which is the double activation by the brake pedal and/or parking.
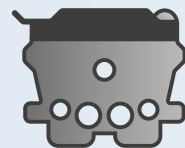

PRESSURE PROTECTION VALVE

It is used in the protection of the airbags when the vehicle is equipped with pneumatic suspension.

COUPLING HEAD

Allows the supply of compressed air to the towed vehicle (red/emergency) and the brake control signal (yellow/service).

ABS - ANTI-LOCK BRAKE SYSTEM

Helps maintain control during emergency braking and improves efficiency in low grip conditions.

SHUNT/RELEASE VALVE

Used to move the vehicle without the need to pressurize the entire brake system.

RELAY VALVE

Braking modulation according to the signal received from the pedal/driver, it also decreases the response time in long/combined vehicles.
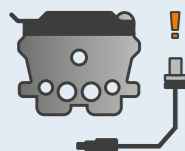

SELECT LOW VALVE

It has the function of a 3rd mechanical modulator, applied to the steered axle.

PRESSURE REGULATOR VALVE

Regulates the pressure of the suspension airbags for vehicles with mixed suspension, or the pressure of the alignment airbags for self-steering axle.

ABS SENSOR

Used in the ABS brake system to measure wheel speed on various trailer models.

PARKING VALVE

It allows the implement to be safely uncoupled.

SOLENOID PILOT

3/2 way normally closed electrically operated valve, used in the control of the self-steered axle.

LEVELING VALVE

Allows to keep the chassis height, regardless of load condition of the vehicle.

IN LINE FILTER WITH BY-PASS

Protects the pneumatic brake and suspension system.
